**All orders are payable in United States Dollars.** If you are using a bank account with checks normally payable in United States currency, you should make out your check as usual. If your bank account's checks are normally payable in any other currency, you need to specify that this check will be payable in United States Dollars. For instance, if your order total is \$24.95, you should write the numeric value as US\$24.95. The written amount should say *Twenty four and 95.100 United States Dollars*. You may also add "Payable in United States Dollars" on the check's memo line in addition to the above requirements.

**Thank you very much for your order!**
